HEAVEN BEE STING FACIAL

The most advanced anti-aging facial treatment to date

The main ingredient is the bee venom contained in ABBETOXIN which works by controlling facial muscles to provide an **immediate lifting effect, firming skin and eliminating wrinkles and expression lines.** It enhances blood circulation in the area and increases production of collagen and elastin. It acts as a barrier against free radicals. It has a regenerative and antibacterial capacity that helps repair cells. The skin will not only have a firmer and smoother appearance; it will also look much healthier, softer and brighter.

The Bee Sting Facial treatment is a facial cleansing and massage using specific products for each skin type, including cleansing gel and cream, toner, exfoliator, facial mask, essential oil, moisturising lotion and Bee Venom Mask. The massage consists of a technique created by Deborah Mitchell to relax facial muscle tissue and firm and tighten skin to provide an immediate lifting.

Suitable for all skin types.

Duration : 1 hour

Price : €135

HEAVEN SLDM (SLIMING LYMPH DRAINAGE MASSAGE)

Relaxing and slimming body treatment

The way to eliminate toxins and lose weight while you let your mind relax, moisturising and rejuvenating skin.

Relaxes muscles and reduces localised fat. Can also help with flu symptoms, allergies, water retention, digestive problems and rheumatism.

With this slimming **lymphatic drainage massage**, you will lose volume and weight. The products used are ylang ylang, sandalwood and patchouli essential oils, vitamin E, organic seaweed and firming moisturisers specific for each skin type (cellulite, stretch marks, flabbiness).

This treatment is ideal to reduce water retention after flights or long periods of sitting.

Duration : 1 hour

SEN MASSAGE

Relaxing anti-stress massage

This whole body massage combines several therapeutic techniques to achieve deep relaxation and unlock energy channels by eliminating muscle tension. Thumbs, forearms, palms of the hand and kneading movements are applied to the legs, back, arms, head and face to energise and relax the body, generate profound wellness and strengthen the nervous system.

Through a combination of rhythmical massage, acupressure and reflexology, this treatment stimulates and balances body energy while **boosting self-healing mechanisms**.

Duration : 1 hour

HEAVEN LIA THERAPY

Anti-aging facial treatment

LIA therapy, the so-called treatment of the “stars” because it is the most requested. **It is the first spiritual and physical facial treatment**, treating your mind, soul and wellbeing with spectacular results.

LIA stands for Lymph Drainage, Incandescent Massage and Acupressure. The treatment consists of a facial cleansing to clean and eliminate all impurities from the face using specific products for each skin type created especially for this therapy, including cleansing gel and cream, toners, exfoliator, facial mask, moisturising lotion, essential oil and Bee Venom Mask. This is followed by the special massage technique using acupressure points, relaxing, reshaping and sculpting the face.

The results include a sensation of complete relaxation and wellbeing, radiant, more revitalised skin, an immediate lifting effect, reduced swelling of the eyes and elimination of wrinkles and expression lines. Suitable for all skin types.

Duration : 1 hour 15 mins

Price : €150

DEAD SEA MINERAL MUD

Facial treatment and body wrap

This treatment contains all 26 minerals from the depths of the Dead Sea known for their therapeutic benefits such as iron, calcium, potassium or sulphur. It also contains magnesium, which fights free radicals and provides greater firmness and elasticity; silica, copper and zinc, which help produce collagen and elastin; cobalt, which gets rid of dead cells; sulphur which maintains skin pigmentation; selenium, an antioxidant that prevents cell degeneration, activates circulation and much more. All these elements slow down the aging process of cells, helping them regenerate and reactivate while balancing the skin's pH and leaving it soft and smooth. This is a great skin renewal and healing treatment.

Aesthetic effects: **deeply cleanses and nourishes the skin** with mineral compounds that help rejuvenate and re-energise it, lessen wrinkles, reduce sebum production, regenerate cells and stimulate blood circulation. Softens expression lines.

Therapeutic effects: immediate, significant improvements with chronic rheumatism, arthrosis, muscle pain, neuralgia, back pain, muscle tears and contractures. **Best results are achieved in the treatment of skin conditions** such as psoriasis, eczema, dermatosis, juvenile acne, rosacea and seborrheic dermatitis.

Duration : 1 hour

Price : €135

THAI MASSAGE

The traditional Thai massage harmonises and balances body and soul.

A combination of finger and hand pressure and gentle stretching movements are applied along the body's energy channels (sen). This helps free all physical tensions due to stress.

No oils or creams are used as this massage is performed on **comfortable, loose-fitting clothes** using hands, elbows, forearms, knees and feet. Rhythmic compression and alternate moments of the therapist's breathing and silence produce a delightful feeling of wellbeing and deep relaxation.

* As this treatment is highly specialised, it must be booked in advanced in order to make sure the expert therapist is available.

KOBIDO

Japanese facelift

Kobido, or “ancient way of beauty”, is also known as the Japanese surgery-free facelift. For centuries, this age-old massage was reserved for the Japanese imperial family and royalty -- since back in 1472, when the Empress of Japan depended upon it to keep her youth and beauty intact.

For the Japanese, beauty is a reflection of the balance between mind, body and soul which shows through the face. Kobido improves the face and neck’s moisturisation, elasticity and firmness. It prevents and reduces wrinkles and sagging. This is why unlike other facial massages, Kobido does not only focus on the surface but beyond, stimulating sub-cutaneous muscles and neurosensory points through acupressure, bringing youth and brightness to the face.

Other benefits:

- Relieves migraine and headaches
- Prevents face stiffness
- Reduces the effects of teeth grinding
- Fights stress
- Improves blood flow

Duration : 1 hour

Price : €135

STONE THERAPY & ENERGY BALANCING

Relaxing body treatment with hot stones and essential oils

The stones used are volcanic basalt, which means they have unique mineral properties: they absorb heat and transfer it to the deepest body tissues such as muscles, ligaments and tendons, resulting in a state of relaxation, balance in the nervous and circulatory system, stress reduction, skin oxygenation, releasing of endorphins, relief from body aches...

A massage with these stones is equivalent to several hours of rest or several sessions of traditional massage. The treatment includes chakra alignment with specific minerals capable of revitalising your physical body and helping your spiritual development.

The massage is combined with the use of lavender, geranium, ylang ylang and sandalwood essential oils, among others.

Duration : 1 hour

Price : €135

CHIROMASSAGE TREATMENT, CHIROPRACTIC ADJUSTMENT

Sports and therapeutic treatment

A chiropractic adjustment is a manual manipulation of vertebrae or joints in order to alleviate compressed nerves, discomfort and pain, strengthen muscles and prevent future injuries or problems. Its benefits, to name just a few, include relieving back pain, muscle contractures, headaches and tendinitis as well as improved body posture.

The treatment is completed by a chiromassage which helps alleviate pain, improves blood circulation, promotes sleep and brings relaxation and wellbeing. If necessary, a **Kinesiotape** may be applied to speed up recovery and maintain the effects of the chiropractic adjustment for longer.

* As this treatment is highly specialised, it must be booked in advanced in order to make sure the expert therapist is available.

EQUIPMENT-BASED BEAUTY TREATMENTS, PRESSOTHERAPY

Toning, fluid-draining and detoxifying body treatment

Pressotherapy reactivates the circulatory system, increases body oxygenation, boosts the immune system, eliminates oedemas, prevents and removes varicose veins, relieves heaviness and muscle fatigue. In addition to these health benefits, pressotherapy has many cosmetic benefits such as cellulite removal, cellulite prevention and leg and buttock firming.

Pressotherapy benefits:

Increases cell oxygenation. Reactivates the blood system. Gets rid of cellulite, fat deposits and toxins from the metabolism. Relieves heavy legs and muscle fatigue. Helps prevent and eliminate vein disorders such as varicose veins. Reduces swelling and inflammation in lower extremities. Eliminates oedemas and lymphoedemas. Improves orange-peel skin which can be so unsightly, leaving the skin tight and bright.

Counter-indications:

- DVT (Deep-vein thrombosis).
- Infection in the legs or treated areas.
- Heart disease.

EQUIPMENT-BASED TREATMENT, RADIOFREQUENCY

Face lifting and cellulite removal and skin tightening body treatment

What are the effects of facial radiofrequency?

Facial radiofrequency uses electromagnetic waves to rejuvenate facial skin. It tightens the skin and improves contour. Its effects are similar to a facelift but without surgery.

Forehead: tightens the skin and raises the eyebrows. Eyes: tenses and plumps up the skin and helps lift the eyes. Cheeks: closes pores and lightly tenses the skin. Jaw-line and face contour: reduces the double chin and sagging tissue. Neck: softens wrinkles and helps tighten the skin.

What are the effects of body radiofrequency?

Body radiofrequency eliminates fat deposits in the treated areas, promotes lymphatic drainage which flushes out fluids and toxins, improves blood circulation and boosts collagen production in all layers of the skin.

Duration : 1 hour

Price : €135

EQUIPMENT-BASED TREATMENT, VACUUM THERAPY WITH RADIOFREQUENCY

Fat-slimming treatment

Vacuum therapy is one of the most effective, non-invasive body-sculpting treatments. It promotes the elimination of fat and toxins through suction and radiofrequency, correcting skin texture, sagging and volume with a tightening effect visible after the first session.

Vacuum therapy benefits:

- Effective against localised fat
- Anti-cellulite, slimming and firming
- Improves tissue elasticity
- Fights and eliminates sagging
- Relieves muscle pain
- Cleanses pores and detoxifies the skin
- Helps post-aesthetic surgery recovery
- Lifts breasts and buttocks

Duration : 1 hour

Price : €135

Duration : 75 mins

Price : €150 (includes pressotherapy)

EQUIPMENT-BASED TREATMENT, CAVITATION

Localised fat-slimming treatment

Cavitation is a safe, painless and non-invasive technique designed to get rid of fat in localised areas. It uses low-frequency ultrasounds to convert fat molecules into a liquid substance which the body then flushes out naturally. This is why you need to drink at least three litres of water throughout the day to help this process.

This treatment is recommended for slimming and cellulite removal.

Other benefits:

- Pain-free
- Tackles targeted areas
- Improves blood circulation
- Improves skin elasticity
- Gradually reduces cellulite
